

## Book time

Encourage your toddler to point at the pictures in books.

There are various ways you can build books into your toddler's daily routine, from leaving books in his cot for the morning to reading bedtime stories at night.

- Keep your toddler's books on a low shelf or in a box on the floor, so your toddler can access them whenever he wants.

Encourage your toddler to choose the book he'd like to read with you.

- Let your toddler turn the pages if he wants to, and don't worry if he loses interest after a few pages – just leave it for another day.
- Try taking your toddler to the library to borrow books too.
